

## Poster Presentation by Topics

### TB and Other Tropical Respiratory Diseases

Title of Poster	Presenter	Poster Number
Development and evaluation of highly sensitive and specific SYBR green real-time PCR assay for detection of influenza A/H1N1 virus in clinical specimens	Je Hyoung Kim	1
Production of monoclonal antibodies for rapid diagnostic kit of influenza viruses	Moon HeeSim	2
Sensitivity and specificity of dot blot method using pili antigen of <i>Pseudomonas aeruginosa</i> for diagnosing pneumonia	Febri Kurniawati	3
Detection of <i>Cryptosporidium</i> in sputum samples of tuberculosis Patients	Heru Prasetyo	4
Ethanol extract propolis (EEP) effect on test for bactericidal <i>Mycobacterium tuberculosis</i>	Eko Kundhori	5

### Dengue and other Arboviral Diseases

Title of Poster	Presenter	Poster Number
Insecticide resistance and its underlying mechanisms in field populations of <i>Aedes aegypti</i> in Singapore	Koou Sy	6

The 2007 Singapore dengue outbreak was associated with a new clade DENV-2 with improved fitness in <i>Aedes aegypti</i>	Tan Cheong Huat	7
Larvicidal activity of <i>Clausena excavate</i> of Ruraceae family against <i>Aedes aegypti</i> and their major chemical constituents	ZaridahMohd	8
Oral susceptibility of Singapore <i>Aedes (Stegomyia) aegypti</i> (Linnaeus) to Zika virus	Jeslyn Wong	9

#### Leptospirosis and other Zoonotic Diseases

Title of Poster	Presenter	Poster Number
Trapped house mouse ( <i>Mus musculus</i> ) of commercial poultry farm could harbour zoonotic pathogens	Allymehr Manoochehr	10

#### Diarrheal and other Gastrointestinal Diseases

Title of Poster	Presenter	Poster Number
The role of daily feeding Sumbawa fermented horse milk in the increasing of response immune s-IgA and the prevention of the secretion of fluid in the intestine of mice Balb/c given with protein adhesin 37.8 kDa sub unit <i>Vibrio cholerae01</i> conjugated CTB.	D. Sumarno	11

The confirmation of protein adhesion of haemagglutinin inhibition 8 kDa sub unit pili <i>Shigella dysenteriae</i> by using immunocytochemistry and calculation of dot blot methods	Khoirul Anam Ssi	12
Application of electrolyzed acidic water: strategy for diarrheal disease control in Tikapur, Nepal	Ma. Easter Joy Sajo	13

### Malaria and other Protozoan Infections

Title of Poster	Presenter	Poster Number
The prevalence and pathological studies of hepatic coccidiosis of the domestic rabbit <i>Oryctolagus cuniculus</i> in Urmia	Ali Asghar Tehrani	14
Identification of <i>Acanthamoeba sp.</i> in feline corneas from peninsular Malaysia	Init Ithoi	15
Effect of natural materials to pathogenic and environmental <i>Acanthamoeba spp.</i>	Suk Yul Jung	16
Morphological and genotypic analysis of <i>Acanthamoeba castellanii</i> by treatment of contact lens-clearing solutions	Suk Yul Jung	17

Molecular diagnosis of <i>Entamoeba histolytica</i> in stool samples using nested PCR of 18S rRNA and ITS1-5.8S-ITS2 rRNA genes	Jabonillo and Rivera	18
Development of a renewable diffraction-based assay for the rapid detection of <i>Entamoeba histolytica</i> in stool samples	Mina and Rivera	19
Evaluation of nested PCR and salivary IgA antibody detection kit for diagnosis of <i>Entamoeba histolytica</i> infection among symptomatic patients	Pangilinan and Rivera	20
The prevalence of <i>Blastocystis spp.</i> in stray cats and dogs in Kuala Lumpur, Malaysia	Benacer D/Nursheena	21
The detection and quantification of <i>Toxoplasma gondii</i> among captive wildlife in Thailand	Ruenruetai Udonsom	22
Seroprevalence of <i>Toxoplasma gondii</i> and <i>Neospora caninum</i> in cattles in South Korea	Wooseog Jeong	23
<i>Trichomonas vaginalis</i> adheres to human lung alveolar basal carcinoma epithelial cell line A549	Salvador and Rivera	24
Development of a Loop-Mediated Isothermal (LAMP) Assay for detection of the sexually-transmitted protozoan <i>Trichomonas vaginalis</i>	Adao and Rivera	25

Molecular characterization of <i>Trichomonas tenax</i> isolated from sputum samples of patients in Montalban, Rizal, Philippines	Dimasuay and Rivera	26
Asymptomatic malaria and anemia among children in Savannakhet Province, Lao PDR	Takeshi Akiyama	27
Evaluation of the treatment of <i>Plasmodium falciparum</i> patients with artemisinin-based combination therapy in Central Region of Vietnam in 2011	Huynh Quang	28
A risk analysis of <i>Plasmodium vivax</i> airport malaria in Japan	Hiroshi Ohmae	29
New mutations in <i>Plasmodium vivax</i> dhfr and dhps genes in the border of Sistan and Baluchestan province, Iran	Fatemeh Maghsoodloorad	30
Factors Associated with non-compliance to anti malaria treatment regimen among patients in Puerto Princesa, Palawan	Ana Ligaya Agoncillo	31

### Schistosomiasis and other Helminthic Infections

Title of Poster	Presenter	Poster Number
<i>Toxocara</i> egg soil contamination in Los Baños, Laguna and seroprevalence of its infection among public school children	Apryl Joy Fajutag and Vachel Paller	32

Prevalence of blood and intestinal parasites among wild rats in Kuala Lumpur, Malaysia	Jamaiah Ibrahim	33
Prevalence of <i>Anisakis spp.</i> in selected species of fish sold in three public markets in Davao City	Melody Juico and Jeko Samera	34
PCR-DNA sequencing of cerebrospinal fluids of patients for diagnosis of eosinophilic meningitis due to <i>Angiostrongylus cantonensis</i> (Nematoda: Metastrongyloidea)	Prapathip Eamsobhana	35
Identification of <i>Angiostrongylus cantonensis</i> and other nematodes using SSU rRNA genes in <i>Achatina fulica</i> populations of Metro Manila	Daisy May Constantino	36
Challenges of lymphatic filariasis elimination: impact of collective sectoral participation and agreements in attaining the status of filariasis-free province – the Eastern Visayas experience	Edgardo Gonzaga	37
The outbreak of important parasites in children of Gorgan, Iran	Rostami	38
Parasitological assessment and intervention of common helminthic infection among pupils of selected elementary schools in Iloilo City	Celia P. Magno and Cynthia Limsiaco	39

*Balamuthia mandrillaris* -  
meningoencephalitis in an 8  
month old infant

Edwin Munoz and Lloyd  
Mercado

40

Unusual suspects: a soft  
tissue tumor in a pediatric  
patient

Elia Paulino – Cabrera and  
Rouchelle dela Cruz

41

### **Insect Vectors**

<b>Title of Poster</b>	<b>Presenter</b>	<b>Poster Number</b>
Susceptibility status of <i>Culex quinquefasciatus</i> (Say) against permethrin in Kuala Lumpur, Malaysia	Wan Norafikah	42
Distribution of black flies (Diptera: Simuliidae) in Langkawi Island Peninsular Malaysia with taxonomic note on new and unidentified species	C.D. Chen	43
Mixed breeding of mosquito larvae in stagnant drainage water in residential areas in Malaysia	Lucas Low	44
Susceptibility status of <i>Culex quinquefasciatus</i> (Say) larvae obtained from rice cultivation area in Sekinchan Selangor Malaysia against malathion temephos and permethrin	Lucas Low	45

## Others

Title of Poster	Presentor	Poster Number
Health problems and challenges in strengthening health services in Tikapur, Nepal	Kyu-Jae Lee	46
Identification of <i>Acinetobacter spp.</i> isolated in tertiary care hospital in Sri Lanka by phenotypic tests and study of their antimicrobial susceptibility status	W. Darshana	47
Indoor forensic entomological studies and post mortem interval estimation on carcasses placed in coastal area located in Tanjong Sepat, Selangor, Peninsular Malaysia	C.D. Chen	48
